

COUNTRY BAND

From 2009's "What This Country Needs"

Verse 1

Well people say I've got what it takes – to make it down in Tennessee
So I'll pack up my things and I'll move away – it's time to follow my
dreams

I'm gonna take this guitar – and finally take that chance
And try and make a livin' – playing in a country band

(CHORUS)

**I'm in a country band – I'm out on the road
I'm boarding that Silver Eagle – every night after the show
I wanna thank you all for listening
and I owe this to all my fans
Cause I'm out here making a living – playing in a country band**

Verse 2

So I headed into Nashville – without a dollar to my name
I got me a gig at a local club – met a man from RCA
So I sang my heart out – then he shook my hand
He said boy you could make a livin' – playing in a country band
