

JIM BEAM and WATER

From 2009's "What This Country Needs"

(CHORUS)

**Jim Beam and Water is what it takes
To help me forget her and ease my heartache
My tears are falling into this jug they'll drown
I got the water as long as the Jim Beam don't run out**

Verse1

Well here I am alone again tonight
She left me and walked right out my life
When she's gone it's you that I reach for
You're always there to help me through once more

Verse 2

Too many times I've been through this before
No this ain't the first time she's walked out my door
And she always says that she'll be back someday
But now she can stay gone and I'll drink my hurt away
