

# **WHAT THIS COUNTRY NEEDS**

*From 2009's "What This Country Needs"*

## Verse 1

I'm tired of hearing songs about rain  
No I don't like Shania Twain  
But you can dial through the stations all day long  
And never hear what I call a good old country song

## **(CHORUS)**

**What this country needs is just a good old cheating song  
One to tear at your heartstrings and make you cry all night long  
Lord I've heard the pop and I've heard the rock coming from my  
radio  
What this country needs is just a good old cheating song**

## Verse 2

Lord the days of Ray Price shuffles are dead and gone  
And old George Jones he just sings at home  
And old Merle's still making records but they don't play them anymore  
What this country needs is just a good old cheating song
